Whispering Angel

CÔTES DE PROVENCE 2016

matthewjukes

18 /20

The colour is the palest coral pink. The texture is fast-becoming a d'Esclans hallmark - gossamer silk with magical slipperiness offset with tangy, citrus pink grapefruit notes and cool, river-stone minerality. This is a perfect Whispering Angel and it will appeal from the moment it is poured into your glass until the last sunset next summer.

Grapes grown from some of the most choice land in the surrounding region of La Motte en Provence, consisting primarily of Grenache, Rolle (Vermentino) and Cinsault. Harvesting at sunrise to noon. Optical grape sorting. Destemming and slight crushing at 7-8°C to avoid oxydation. Both the free run juice and pressed juices are vinified in stainless steel. "Batônnage" is twice weekly. Temperature controlled.
